We've allowed our children to think that they are entitled to everything without having to work for it.

YOU CAN DO IT!

Teamwork

L_EI_RS_08 - Extends help to others to attain a mutual goal (Observation)

Teamwork: (Click the slide to reveal the TEAMWORK picture and say...)
"When we work together to solve a problem or help someone out it is called 'teamwork.'" Let us try it out. I need 3 volunteers for this activity. (Select 3 learners who have not had a chance to be volunteers before.)

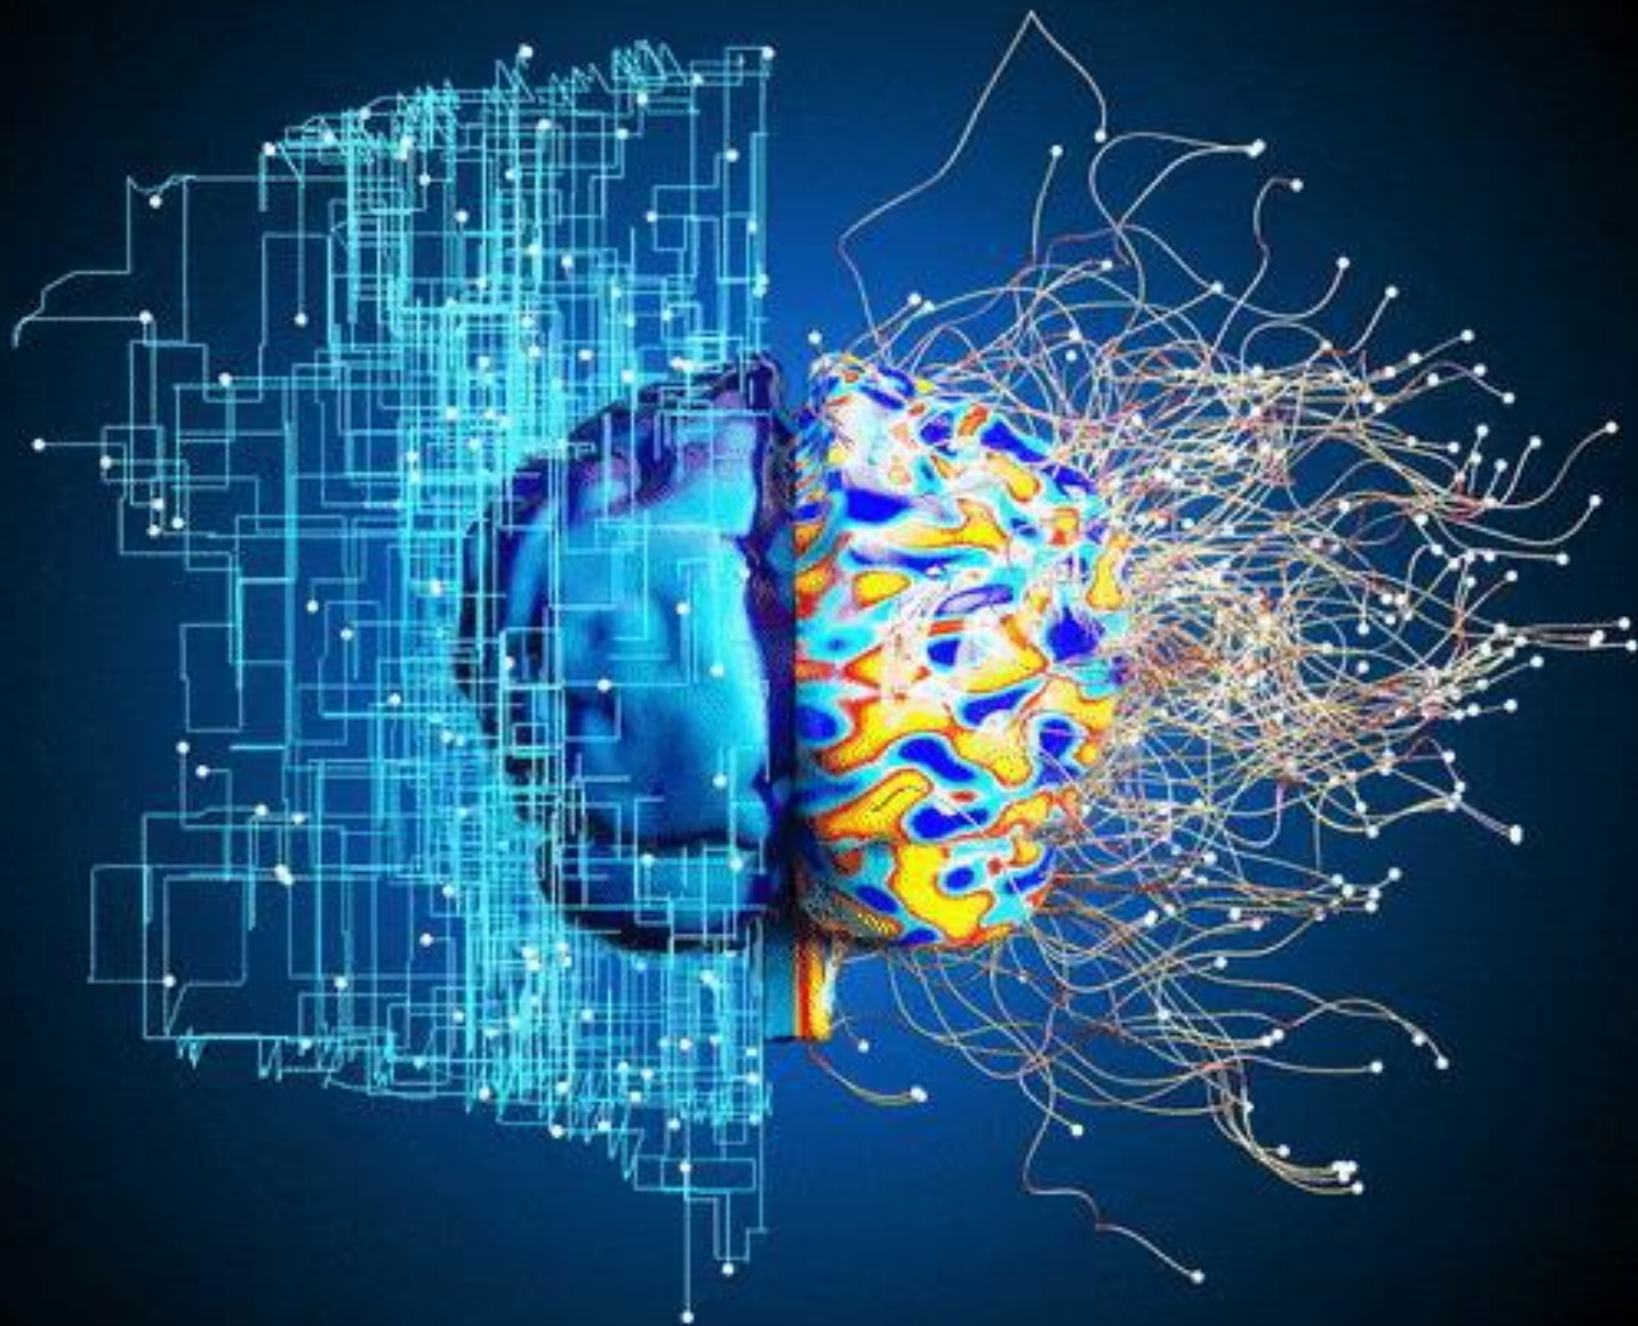

Alright we have Aaron, Amy and Anaya. Here is a tub full of pool balls. Aaron, Amy and Anaya have to take the balls from the tub to the empty tub on the opposite side of the room but they can make only one round, i.e. they cannot come back to take the ones they left behind. They need to make sure this tub is empty and they fill the other one with all the balls. Is it possible for them to carry all the balls in one round? Let us see.
Aaron, amy and Anaya - how many balls can you carry at one time in one round? (Encourage the 3 volunteers to try.)

We saw that it is not possible to take all the balls to that tub in one round. So -

- Should they give up?
- How can you help them?
