# Impact Report 2023-2024

## ABOUT Early Childhood Association (ECA)

Let Childhood Be The Right Of Every Child, Everywhere... With this dream and vision, we have formed the Early Childhood Association of India – [www.eca-aper.org](http://www.eca-aper.org)

ECA is a national body registered in April 2011 in Mumbai with the intention of bringing together professionals in the field of early childhood education in the interest of the young child. This association has 42 territories all over India. We are a nonprofit Association (MRM-1082. 2011-G.B.B.S.D.). The Early Childhood Association is that one-stop connection needed by all for the enrichment, networking, awareness and advocacy of childhood and everything that affects it. ECA aims to help professionals, teachers, and people who deal with children through their work in balwadis, daycare centres, rural crèches, teacher training colleges and entrepreneurial networks (basically anyone who contributes directly or indirectly into the caring of a child) and be able to provide them with resources of every sort. This could range from information, latest research, training and ideas and perhaps solutions and counselling.

## OUR MISSION

To empower parents, teachers and others to explore and develop holistic programs and environments for children that will look after their well-being, relationships, family and community and thus help each and every child grow up in a healthy mind, body and spirit.

## OUR GOAL

Is advocacy for "stress-free childhood years", after all this is the right of every child. We want to touch the lives of all those who affect the lives and learning of children - be it teachers, parents, policymakers, entrepreneurs, media.

Early Childhood Association has brought together preschool, kindergarten, primary teachers & administrators, caregivers, program directors, and individuals working with & for families, to promote quality care and education for young children. Our 12000+ members include child care facilities, Early Childhood Educators and Child Care Assistants employed in child care centres, Family Child Care Providers, Parents, Doctors and professionals who share an interest in high-quality early learning and care. Our memberships range from School members, individual members, parent members, Patron Principals, Corporate members, NGO members and advisory members.

The Early Childhood Association has the best experts from all over India serving on its national committee in various capacities as given below. This wealth of expertise helps us design curriculums and trainings that would be best suited to child care and education centres all over the country. We have experts who have worked with private schools, anganwadis, balwadis and with parents and so at the Early Childhood Association, we bring together their expertise and develop culturally appropriate as well as age-appropriate learning and teaching activities.

# ABOUT Association for Preparatory Education and Research (APER)

APER- Association for Preparatory Education and Research (APER), is a body created by the Early Childhood Association to ensure that the care and education of children from 6 to 10 years have a common goal, a smooth transition and lifelong success for all children. APER aims to bring together all stakeholders involved in the education of children from 6 to 10 years. Learning, researching, reflecting and leading is our motto and our goal is to ensure that every primary school teacher in our country gets access to the latest research, training, and publications that will help them create classrooms where children learn in a stress-free environment created with the best from local and global education practices. We work to encourage research and reflective study in primary education and want our primary education to be stress-free and have a smooth transition for children from early years to primary years in school.

## Workshops at DIDAC india

## Our Consultancy Work

We take up consultancy projects wherein we help organisations conduct quality audits, training and more. This year we completed the third year of our project with Life Foundation.

Life Foundation manages the preschool section for 24 state-run schools in Mumbai. During this year-long project, ECA-APER partnered with them to train over 80 teachers on ECCE to provide them with in-depth knowledge on key topics such as teaching strategies, effective classroom management, the role of the teacher, creating effective lesson plans, child observation and assessment, and supervisor training. These sessions have been supported by visits to the schools for observations on training effectiveness.

# ECA-APER 10th Annual Conference

## Building Foundation With P.L.A.Y (Witty International School, Borivali, Mumbai) 24th - 25th February, 2024

ECA-APER hosted a two-day conference titled "Building Foundation with P.L.A.Y." The focal point of this event was to highlight the pivotal role of PLAY Pedagogy, echoing the key tenets outlined in both the National Education Policy (NEP) 2020 and the National Curriculum Framework (NCF) 2022.

### Some of the Key Takeaways:

- Understanding about the NEP 2020 and NCF 2022 in relation to curriculum, assessment and parent partnership
- Relating the different aspects of the NCF-2022 to the goals and objectives of the CBSE, ICSE, IB and Cambridge curriculum
- Play and explore the PLAY pedagogy as recommended by NCF 2022
- Deep-dived into other important topics like differentiated learning, special education, numeracy, literacy and more

### Keynotes were delivered by:

**Shri Suraj Mandhare IAS**  
Education Commissioner

**Dr. Swaroop Sampat Rawal**  
Actor, Author, Researcher, & International Life Skill Educator  
Vice President, ECA-APER

**Dr. Samir Dalwai**

ਮੈਂ ਵਿਭਿੰਨਤਾ ਦਾ ਸਨਮਾਨ ਕਰਦਾ ਹਾਂ ਅਤੇ ਆਪਣੇ ਸਾਰੇ ਵਿਦਿਆਰਥੀਆਂ ਦੀਆਂ ਲੋੜਾਂ ਪੂਰੀ ਸੰਵੇਦਨਸ਼ੀਲ ਰਹਾਂਗਾ। ਸਮੁੱਚੇ ਆਪਣੇ ਵਿਦਿਆਰਥੀਆਂ ਦੇ ਵਿਕਾਸ ਅਤੇ ਸਮਾਜ ਵਿੱਚ ਵਿਦਿਆਰਥੀਆਂ ਲਈ ਬਰਕਰਾਰ ਰੱਖਾਂਗਾ।

ਕੁਦਰਤ ਅਤੇ ਹਰ ਜੀਵ ਦਾ ਸਤਿਕਾਰ ਕਰਨਾ ਮੇਰੀ ਪਾਠ ਯੋਜਨਾ ਦਾ ਹਿੱਸਾ ਹੋਵੇਗਾ। ਮੈਂ ਸਾਡੀ ਧਰਤੀ ਦਾ ਹਰਿਆਵਲ ਰਾਜਸ਼ੁਭ ਰੱਖਾਂਗਾ।

ਸਿੱਖਣਾ ਹਰ ਬੱਚੇ ਦਾ ਅਧਿਕਾਰ ਹੈ ਅਤੇ ਮੈਂ ਇਸ ਅਧਿਕਾਰ ਨੂੰ ਬਰਕਰਾਰ ਰੱਖਾਂਗਾ ਅਤੇ ਇਹ ਯਕੀਨੀ ਬਣਾਵਾਂਗਾ ਕਿ ਕੋਈ ਵੀ ਬੱਚਾ ਪਿੱਛੇ ਨਾ ਰਹੇ।

ਮੇਰੇ ਵਿਦਿਆਰਥੀ ਦਾ ਵਿਕਾਸ, ਸੁਰੱਖਿਆ, ਤੰਦਰੁਸਤੀ ਅਤੇ ਸਿੱਖਿਆ ਮੇਰਾ ਟੀਚਾ ਹੋਵੇਗਾ।

  
**The Educators Oath**  
 An initiative by ECA-APER

I \_\_\_\_\_ hereby solemnly promise  
 To take care of my wellbeing and the wellbeing of my students.

I promise to embrace ethical practices in my teaching.  
 I promise never to be partial to any student.

I respect diversity and will be sensitive to the needs of all my students.  
 Inclusion is a right that I will always uphold for my students.

Respect for nature and every living being will be a part of my lesson planning  
 I will be a green ambassador for our earth.

Learning is the right of every child and I will uphold this right and ensure that no child is left behind.

My student's growth, safety, wellbeing and learning will be my goal.

# Surveys

ECA has conducted over 15 surveys on important topic such related to children's development and environmental factors that affect it. This year the survey was on-

1. Junk Food - Healthy Food awareness survey, ECA received numerous calls and messages from schools and parents that want to support the healthy food initiatives but find it difficult. ECA initiated a second survey, for schools only to understand the issues being faced and to come up with solutions.

## Survey Report -

Appeal to help create regulatory guidelines to control salt-sugar-fat in foods children consume from companies and restaurants.

**Early Childhood Association - One Vision - A Safe, Healthy and Healthy Childhood in India**

**Key Findings:**

- 1. In the past governments have passed rules for schools to implement a healthy and nutritious food format to be served in the school canteens. Healthy food should not be improved as a rule and we should strive to make it a way of life. If implemented as a rule it will only be resisted, and so education about the facts is very important. We know of the obesity epidemic for staying away from junk food, but when we talk about children we must also be worried about the impact of diet on their learning and thinking skills, here are 5 other reasons why diet plays an important role in the performance and growth of children of all ages.

1. Maslow's hierarchy of needs identifies food and water as the first need. It is only when this need of the body is met that we can focus, pay attention and learn.
2. Food impacts our blood sugar levels and in turn our blood pressure. Incorrect fats like too much salt and sugar (one packet of movie salted popcorn has one week's requirement of salt!) can impact the ability to pay attention and can lead to increase in hyperactivity.
3. Brain requires oxygen for its functioning and additives, beverages like too much coffee etc. can dehydrate the brain and leave it coping with every day functions.
4. The liver can store glucose for 4 hours only, and so the body requires food that can be converted into glucose. Junk foods fatty are just junk and do not fulfill this important need.
5. The brain requires important chemicals for its functioning. Chemicals like- Acetylcholine. Helps with frontal lobe functions and in formation of long-term memories, Dopamine. Assists in focus, attention, and goal setting, Norepinephrine. Responds to novelty and aids in memory formation, Serotonin. Helps control impulsivity, calms the brain, aids in reflective behavior. And how does the brain process these chemicals? From healthy diet and sleep.

**What are we asking from Schools, Parents and Government?**

1. Give a snack break for children to follow.
2. Reduce junk food in the canteens.
3. Be alert about the nutritional value in foods.
4. Impose a sugar and fat tax in foods that are consumed by children.

As they say better late than never. ECA-APR launched a massive campaign to create this awareness in parents and schools #chuckchuck #measmeasandmybrain

# What our Corporate Members say...

March 29, 2024

To,  
Dr. Swati Popat Vats  
President  
Early Childhood Association & APER  
Mumbai.

Respected Dr. Vats,

Greetings from Duck Learning India Private Limited.

I take this opportunity to thank you and ECA for supporting our mission to reach out to all early years educators through various forms of communication such as workshops, demo sessions etc.

We did 2 workshops this month and we have received an overwhelming response for our subject learning resource and we are in a phase of receiving orders from schools from various cities of India.

When we launched Kubo Education's learning resources in India, the first group of schools where we had done a detailed demo session was " Podar Jumbo Kids " where the core team of Podar Jumbo Kids explored the set completely and later the kit was kept in the school for further exploration.

ECA has helped us immensely to reach out to ECA affiliated schools across the country and through our workshops and demo sessions, many schools are now using Kubo Coding kit as an integrated learning tool for early age learners, but it is sad that our learning resource is still away from your esteemed school group.

We are looking forward to strengthen our association further with ECA and APER in the years to come.

Thanking You,

Sincere Regards,

Vishwanath Ghanekar

# Become Our Member

We invite you to join us at the Early Childhood Association as its member so that its activities can reach out and be shaped and sharpened by all of us who have endeavored for childhood initiatives and child rights.

The early years of a child's life are indeed the foundational years. ECA & APER have been set up with the vision that all the preschools, balwadis, NGOs, children's activity classes, parents, student teachers, media houses, companies that deal with children's products, in short everyone connected to young children can all come together to advocate, discuss and bring about a change in the quality of care, development, and learning in early childhood in India. Our goal is advocacy for stress-free childhood years, after all this is the right of every child. We want to touch the lives of all those who affect the lives and learning of children – teachers, teacher trainers, parents, policymakers, entrepreneurs, and media.
